01 April 2009

*Aszalos-Kiss, B., D. Zemlyanov, H. Gabasch, W. Unterberger, B. Klötzer, E. Kleimenov, D. Teschner, S. Zafeiratos, M. Hävecker, A. Knop-Gericke and R. Schlögl:* Oxygen dissolution: In situ XPS investigation of Pd(111) oxidation. In: BESSY Annual Report 2004. (Eds.) Kai Godehusen. Berliner Elektronenspeicherring-Gesellschaft für Synchrotronstrahlung m.b.H. (BESSY), Berlin (2005) 287-289.

*Babu, S. M., A. Meeder, D. Fuertes Marron, T. Schedel-Niedrig, M. Hävecker, A. Knop-Gericke and M. C. Lux-Steiner:* Thermal stability and environmental effects on CuGaSe<sub>2</sub> thin film solar cells. In: Journal of Crystal Growth **275**, 1-2, 1235-1240 (2005).

*Beato, P.:* Synthesis and characterization of realistic molybdenum oxide based model systems in heterogeneous catalysis. Doktorarbeit, Technische Universität Berlin, Berlin (2005).

*Blume, R., H. Niehus, H. Bluhm, M. Hävecker, A. Knop-Gericke, R. Schlögl and H. Conrad:* High-Pressure oxidation of the Ru(0001) surface at elevated temperatures investigated by in situ X-ray photoelectron spectroscopy. In: BESSY Annual Report 2004. (Eds.) Kai Godehusen. Berliner Elektronenspeicherring-Gesellschaft für Synchrotronstrahlung m.b.H. (BESSY), Berlin (2005) 284-286.

*Bron, M., D. Teschner, A. Knop-Gericke, A. Scheybal, B. Steinhauer, M. Hävecker, R. Födisch, R. Hönicke, R. Schlögl and P. Claus:* In situ-XAS and catalytic study of acrolein hydrogenation over silver catalyst: Control of intramolecular selectivity by the pressure. In: Catalysis Communications **6**, 5, 371-374 (2005).

*Bron, M., D. Teschner, A. Knop-Gericke, B. Steinhauer, A. Scheybal, M. Hävecker, D. Wang, R. Födisch, R. Hönicke, A. Wootsch, R. Schlögl and P. Claus:* Bridging the pressure and materials gap: in-depth characterisation and reaction studies of silver-catalysed acrolein hydrogenation. In: Journal of Catalysis **234**, 37-47 (2005).

*Brückner, A., U. Bentrup, M. Fait and B. Kubias:* Structure-reactivity relationships in supported VO<sub>x</sub> catalysts for the oxyhydrative scission (OHS) of 1-butene and n-butane to acetic acid: A comprehensive catalytic and in situ study. In: Catalysis Today **99**, 1-2, 123-129 (2005).

*Bukhtiyarov, V. I., A. Nizovskii, H. Bluhm, M. Hävecker, E. Kleimenov, A. Knop-Gericke and R. Schlögl*: Combined high pressure XPS and PTRMS study of ethylene epoxidation over silver. In: BESSY Annual Report 2004. (Eds.) Kai Godehusen. Berliner Elektronenspeicherring-Gesellschaft für Synchrotronstrahlung m.b.H. (BESSY), Berlin (2005) 290-292.

*de Groot, F. M. F., P. Glatzel, U. Bergmann, P. A. van Aken, R. A. Barrea, S. Klemme, M. Hävecker, A. Knop-Gericke, W. M. Heijboer and B. M. Weckhuysen*: A multiplett analysis of 1s<sub>2p</sub> resonant inelastic scattering, 1s pre-edges and 2p X-ray absorption of iron oxides. In: Journal of Physical Chemistry B **109**, 44, 20751-20762 (2005).

*Dennstedt, A., A. Deshpande, M. Niederberger, R. Schlögl and T. Ressler*: Ternary Cu/ZrO<sub>2</sub>CeO<sub>2</sub> catalysts for methanol steam reforming. In: Jahresbericht 2005, Annual Report 1. (Eds.) Hasylab at Desy. Hamburger Synchrotronstrahlungslabor HASYLAB at Deutsches Elektronen-Synchrotron DESY, Hamburg (2005) 1115-1116.

*Dong, W.-S., J. K. Bartley, N. F. Dummer, F. Girgsdies, D. Su, R. Schlögl, J.-C. Volta and G. J. Hutchings*: Reaction of vanadium phosphates with alcohols at elevated temperature and pressure. In: Journal of Materials Chemistry **15**, 31, 3214-3220 (2005).

*Dong, W.-S., J. K. Bartley, F. Girgsdies, R. Schlögl and G. J. Hutchings*: The hydration and transformation of vanadyl pyrophosphate. In: Journal of Materials Chemistry **15**, 38, 4147-4153 (2005).

*Fuchs, M., B. Jenewein, S. Penner, K. Hayek, G. Rupprechter, D. Wang, R. Schlögl, J. J. Calvino and S. Bernal*: Interaction of Pt and Rh nanoparticles with ceria supports: Ring opening of methylcyclobutane and CO hydrogenation after reduction at 373-723 K. In: Applied Catalysis A-General **294**, 2, 279-289 (2005).

*Fuchs, M., B. Jenewein, S. Penner, K. Hayek, G. Rupprechter, D. Wang, R. Schlögl, J. J. Calvino and S. Bernal*: Interaction of Pt and Rh nanoparticles with ceria supports: Ring opening of methylcyclobutane and CO hydrogenation after reduction at 373 – 723 K. In: Applied Catalysis A: General **294**, 279-289 (2005).

*Girgsdies, F., T. Ressler, U. Wild, T. Wübber, T. J. Balk, G. Dehm, L. Zhou, S. Günther, E. Arzt, R. Imbihl and R. Schlögl*: Strained thin copper films as model catalysts in the materials gap. In: Catalysis Letters **102**, 1-2, 91-97 (2005).

*Grasset, F., G. Starukh, L. Spanhel, S. Ababou-Girard, D. S. Su and A. Klein-Hoffmann*: From ZnO Colloids to Nanocrystalline Colored Zn<sub>x</sub>Ti<sub>y</sub>O<sub>w-z</sub>N<sub>z</sub>-Spinel Films. In: Advanced Materials **17**, 294-297 (2005).

*Günther, S., L. Zhou, R. Imbihl, M. Hävecker, A. Knop-Gericke, E. Kleimenov and R. Schlögl:* In situ X-ray photoelectron spectroscopy of the methanol oxidation over Cu(110). In: BESSY Annual Report 2004. (Eds.) Kai Godehusen. Berliner Elektronenspeicherring-Gesellschaft für Synchrotronstrahlung m.b.H. (BESSY), Berlin (2005) 299-301.

*Győrffy, N., L. Tóth, M. Bartók, J. Ocskó, U. Wild, R. Schlögl, D. Teschner and Z. Paál:* Palladium-platinum powder catalysts manufactured by colloid synthesis II. Characterization and catalytic tests after oxidizing and reducing treatment. In: Journal of Molecular Catalysis A **238**, 1-2, 102-110 (2005).

*Hävecker, M., B. Kniep, E. Kleimenov, P. Schnörch, D. Teschner, S. Zafeiratos, H. Bluhm, A. Knop-Gericke, T. Ressler and R. Schlögl:* Combined in situ XPS and in situ soft XAS study of Cu/ZnO catalysts for methanol steam reforming. In: BESSY Annual Report 2004. (Eds.) BESSY GmbH. Berliner Elektronenspeicherring-Gesellschaft für Synchrotronstrahlung m.b.H. (BESSY), Berlin (2005) 281-283.

*Hävecker, M., A. Knop-Gericke and R. Schlögl:* X-Rays sight active sites: Dynamics of catalytic surfaces under reaction conditions. In: BESSY Highlights 2004. (Eds.) Andre, Gabriele; Henneken, Heike; Sauerborn, Markus. (2005) 10-11.

*Hävecker, M., N. Pinna, K. Weiß, H. Sack-Kongehl, R. E. Jentoft, D. Wang, M. Swoboda, U. Wild, M. Niederberger, J. Urban, D. S. Su and R. Schlögl:* Synthesis and functional verification of the unsupported active phase of  $V_xO_y$  catalysts for partial oxidation of n-butane. In: Journal of Catalysis **236**, 221-232 (2005).

*Hahn, A. H. P., R. E. Jentoft, T. Ressler, G. Weinberg, R. Schlögl and F. C. Jentoft:* Rapid Genesis of Active Phase during Calcination of Promoted Sulfated Zirconia Catalysts. In: Journal of Catalysis **236**, 324-334 (2005).

*Hess, C., I. J. Drake, J. D. Hoefelmeyer, T. D. Tilley and A. T. Bell:* Partial Oxidation of Methanol over Highly Dispersed Vanadia Supported on Silica SBA-15. In: Catalysis Letters **105**, 1-2, 1-8 (2005).

*Huang, W., W. Ranke and R. Schlögl:* Molecular Level Understanding the Catalytic Cycle of Dehydrogenation of Ethylbenzene to Styrene over Iron Oxide-based Catalyst. In: Journal of Physical Chemistry B **109**, 19, 9202-9204 (2005).

*Jentoft, F. C.:* Sulfated Zirconia Alkane Isomerization Catalysts: A Treatise. Habilitation, Humboldt-Universität zu Berlin, Berlin (2005).

*Jentoft, F. C., J. Kröhnert and R. Schlögl: IR Spectroscopic Investigation of Heteropolymolybdate Catalysts: Acidic Properties and Reactivity towards Propene. In: Zeitschrift für Physikalische Chemie* **219**, 1019-1045 (2005).

*Jentoft, R. E., A. H. P. Hahn, F. C. Jentoft and T. Ressler: XAS In Situ Cell for Measurements of Mn and Fe Promoted Sulfated Zirconia Catalysts. In: Physica Scripta* **T115**, 794-797 (2005).

*Jentoft, R. E., A. H. P. Hahn, F. C. Jentoft and T. Ressler: In-situ XANES Study on Mn in Promoted Sulfated Zirconia Catalysts. In: Physical Chemistry Chemical Physics* **7**, 14, 2830-2838 (2005).

*Joshi, P.: Studies on the Activation of Mn-Promoted Sulfated Zirconia Catalyst for Alkane Isomerization by In-Situ UV-vis-NIR Spectroscopy. Master, Freie Universität Berlin, Berlin (2005).*

*Karge, H. G.: Infrared Spectroscopic Investigation of Diffusion, Co-Diffusion and Counter-Diffusion of Hydrocarbon Molecules in Zeolites. In: Comptes Rendus Chimie* **8**, 3-4, 303-319 (2005).

*Ketteler, G. and W. Ranke: Epitaxial iron oxide growth on a stepped Pt(9 11 11) surface. In: Journal of Vacuum Science and Technology A* **23**, 4, 1055-1060 (2005).

*Kirilenko, O.: Structural Evolution of Ammonium Paratungstate During Thermal Decomposition. Doktorarbeit, Technische Universität Berlin, Berlin (2005).*

*Kirilenko, O., F. Girgsdies, R. E. Jentoft and T. Ressler: In situ XAS and XRD study on the structural evolution of ammonium paratungstate during thermal decomposition. In: European Journal of Inorganic Chemistry*, 11, 2124-2133 (2005).

*Kleimenov, E.: High-pressure X-ray photoelectron spectroscopy applied to vanadium phosphorus oxide catalysts under reaction conditions. Doktorarbeit, Technical University, Berlin (2005).*

*Kleimenov, E., H. Bluhm, M. Hävecker, A. Knop-Gericke, A. N. Pestryakov, D. Teschner, J. A. Lopez-Sanchez, J. K. Bartley, G. J. Hutchings and R. Schlögl: XPS investigation of VPO catalysts under reaction conditions. In: Surface Science* **575**, 1-2, 181-188 (2005).

*Klose, B. S.: Skeletal Isomerization of Butane by Sulfated Zirconia Catalysts - A Branched Field -. Doktorarbeit, Technische Universität Berlin, Berlin (2005).*

*Klose, B. S., F. C. Jentoft and R. Schlögl:* In Situ Diffuse Reflectance IR Spectroscopic Investigation of Promoted Sulfated Zirconia Catalysts during n-Butane Isomerization. In: *Journal of Catalysis* **233**, 68-80 (2005).

*Klose, B. S., F. C. Jentoft, R. Schlögl, I. R. Subbotina and V. B. Kazansky:* Effect of Mn and Fe on the reactivity of sulfated zirconia toward H<sub>2</sub> and n-butane: A diffuse reflectance IR spectroscopic investigation. In: *Langmuir* **21**, 10465-10572 (2005).

*Kniep, B.-L.:* Microstructural Modifications of Copper Zinc Oxide Catalysts as a Function of Precipitate Ageing. Doktorarbeit, Technische Universität Berlin, Berlin (2005).

*Kniep, B.-L., F. Girgsdies and T. Ressler:* Effect of precipitate ageing on the microstructural characteristics of Cu/ZnO catalysts for methanol steam reforming. In: *Journal of Catalysis* **236**, 1, 34-44 (2005).

*Kondratenko, E. V., M. Cherian, M. Baerns, D. S. Su, R. Schlögl, X. Wang and I. E. Wachs:* Oxidative dehydrogenation of propane over V/MCM-41 catalysts: Comparison of O<sub>2</sub> and N<sub>2</sub>O as oxidant. In: *Journal of Catalysis* **234**, 1, 131-142 (2005).

*Li, D. F., D. S. Su, J. W. Song, X. Y. Guan, A. Klein-Hoffmann and F. S. Xiao:* Highly Steam-Stable Mesoporous Silica Assembled from Preformed Zeolite Precursors at High-Temperatures. In: *Journal of Materials Chemistry* **15**, 47, 5063-5069 (2005).

*Li, X., K. Nagaoka, L. J. Simon, J. A. Lercher, S. Wrabetz, F. C. Jentoft, C. Breitkopf, S. Matysik and H. Papp:* Interaction between Sulfated Zirconia and Alkanes: Prerequisites for Active Sites – Formation and Stability of Reaction Intermediates. In: *Journal of Catalysis* **230**, 214-225 (2005).

*Macia-Agullo, J. A., D. Cazorla-Amoros, A. Linares-Solano, U. Wild, D. S. Su and R. Schlögl:* Oxygen functional groups involved in the styrene production reaction detected by quasi in-situ XPS. In: *Catalysis Today* **102-103**, 248-253 (2005).

*Macia-Agullo, J. A., D. Cazorla-Amorós, A. Linares-Solano, M. Hävecker, D. Teschner, E. Kleimenov, A. Knop-Gericke and R. Schlögl:* Investigation of styrene production over carbon catalysts using high-pressure XPS. In: *BESSY Annual Report 2004*. (Eds.) Kai Godehusen. Berliner Elektronenspeicherring-Gesellschaft für Synchrotronstrahlung m.b.H. (BESSY), Berlin (2005) 278-280.

*Mastalir, A., B. Frank, A. Szizybalski, H. Soerijanto, A. Deshpande, M. Niederberger, R. Schomäcker, R. Schlögl and T. Ressler:* Steam reforming of methanol over Cu/ZrO<sub>2</sub>/CeO<sub>2</sub> catalysts: a kinetic study. In: *Journal of Catalysis* **230**, 2, 464-475 (2005).

*Müller, J.-O.*: Investigations on Environmental Carbons. Doktorarbeit, Technische Universität Berlin, Berlin (2005).

*Müller, J.-O., D. S. Su, R. E. Jentoft, J. Kröhnert, F. C. Jentoft and R. Schlögl*: Morphology-controlled reactivity of carbonaceous materials towards oxidation. In: *Catalysis Today* **102-103**, 259-265 (2005).

*Muhamad, E. N. B.*: Structure-Activity Correlations of Cu/ZnO Catalysts Derived from Different Precursors as Function of Aging Time. School of Graduate Studies, Universiti Putra Malaysia, Kuala Lumpur/Malaysia (2005).

*Osswald, J.*: Active-Site Isolation for the Selective Hydrogenation of Acetylene: the Pd-Ga and Pd-Sn Intermetallic Compounds. Doktorarbeit, Technische Universität Berlin, Berlin (2005).

*Ozensoy, E., C. Hess, D. Loffreda, P. Sautet and D. W. Goodman*: Formation of a High Coverage (3×3) NO Phase on Pd(111) at Elevated Pressures: Interplay Between Kinetic and Thermodynamic Accessibility. In: *Journal of Physical Chemistry B* **109**, 5414-5417 (2005).

*Paál, Z., D. Teschner, N. Rodriguez, R. T. K. Baker, L. Tóth, U. Wild and R. Schlögl*: Rh/GNF catalysts: Characterization and catalytic performance in methylcyclopentane reactions. In: *Catalysis Today* **102-103**, 254-258 (2005).

*Penner, S., D. Wang, R. Schlögl and K. Hayek*: Rhodium particles supported by thin vanadia films as model systems for catalysis: An electron microscopy study. In: *Thin Solid Films* **484**, 10-17 (2005).

*Pestryakov, A., I. Tuzosvkaja, E. Smolentseva, N. Bogdanchikova, F. C. Jentoft and A. Knop-Gericke*: Formation of Au Nanoparticles in Zeolites. In: *International Journal of Modern Physics B* **19**, 15-17, 2321-2326 (2005).

*Pinna, N., G. Garnweitner, P. Beato, M. Niederberger and M. Antonietti*: Synthesis of Yttria-Based Crystalline and Lamellar Nanostructures and their Formation Mechanism. In: *Small* **1**, 1, 112-121 (2005).

*Pinna, N., S. Grancharov, P. Beato, P. Bonville, M. Antonietti and M. Niederberger*: Magnetite nanocrystals: Nonaqueous synthesis, characterization, and solubility. In: *Chemistry of Materials* **17**, 11, 3044-3049 (2005).

*Polleux, J., N. Pinna, M. Antonietti, C. Hess, U. Wild, R. Schlögl and M. Niederberger*: Ligand functionality as a versatile tool to control the assembly behavior of preformed titania nanocrystals. In: *Chemistry - A European Journal* **11**, 12, 3541-3551 (2005).

*Prescott, H. A., Z.-J. Li, E. Kemnitz, A. Trunschke, J. Deutsch, H. Lieske and A. Auroux:* Application of Calcined Mg-Al Hydrotalcites for Michael Additions: An Investigation of Catalytic Activity and Acid-base Properties. In: *Journal of Catalysis* **234**, 1, 119-130 (2005).

*Radnik, J., A. Wahab, M. Schneider, M.-M. Pohl, R. Schlögl and B. Kubias:* The influence of chemical transport via vapour phase on the properties of chloride and caesium doped V-Fe mixed oxide catalysts in the oxidation of butadiene to furan. In: *Applied Catalysis A: General* **285**, 1-2, 139-150 (2005).

*Ressler, T., B. L. Kniep, I. Kasatkin and R. Schlögl:* The Microstructure of Copper Zinc Oxide Catalysts – Bridging the Materials Gap. In: *Angewandte Chemie International Edition* **44**, 30, 4704-4707 (2005).

*Ressler, T., O. Timpe and F. Girgsdies:* In situ bulk structural study on solid-state dynamics and catalytic activity correlations of a  $H_4[PNbMo_{11}O_{40}]$  partial oxidation catalyst. In: *Zeitschrift für Kristallographie* **220**, 2/3, 295-305 (2005).

*Ressler, T., O. Timpe, F. Girgsdies, J. Wienold and T. Neisius:* In situ investigations of the bulk structural evolution of vanadium containing heteropolyoxomolybdate catalysts during thermal activation. In: *Journal of Catalysis* **231**, 2, 279-291 (2005).

*Ressler, T., J. Wienold and O. Timpe:* Evolution of Catalyst Structure under Reaction Conditions From Time-resolved in situ XAS Investigations. In: *Physica Scripta* **T115**, 66-71 (2005).

*Rödel, E., R. Schlögl and T. Ressler:* In situ XAS investigation of tungsten as structure directing agent during formation of  $Mo_5O_{14}$  type partial oxidation catalysts. In: *Jahresbericht 2005, Annual Report. (Eds.) Hasylab at Desy. Hamburger Synchrotronstrahlungslabor HASYLAB at Deutsches Elektronen-Synchrotron DESY, Hamburg* (2005) 1105-1106.

*Schäfer, J.:* Open Access-Praxis im Fritz-Haber-Institut der Max-Planck-Gesellschaft. Diplom, Fachhochschule Potsdam, Potsdam (2005).

*Schlögl, R.:* Heterogeneous Catalysis for the C-H Transformation of Unfunctionalized Alkanes. In: *Handbook of C-H Transformations: Applications in Organic Synthesis. (Eds.) Dyker, G. Application in Organic Synthesis* **2**. Wiley-VCH, Weinheim, (2005) 589-598.

*Schlögl, R., S. Wrabetz (Eds.):* Department of Inorganic Chemistry - Fritz-Haber-Institut der Max-Planck-Gesellschaft. 1. Edition Department of Inorganic Chemistry / FHI, Berlin (2005) Total Number of Pages 35 p.

*Schüle, A., O. Shekhah, W. Ranke, R. Schlögl and G. Kolios:* Microkinetic modelling of the dehydrogenation of ethylbenzene to styrene over unpromoted iron oxides. In: *Journal of Catalysis* **231**, 1, 172-180 (2005).

*Su, D. S., X. Chen, G. Weinberg, A. Klein-Hoffmann, O. Timpe, S. B. Abd Hamid and R. Schlögl:* Hierarchically Structured Carbon: Synthesis of Carbon Nanofibers Nested inside or Immobilized onto Modified Activated Carbon. In: *Angewandte Chemie International Edition* **44**, 34, 2-6 (2005).

*Su, D. S., X. Chen, G. Weinberg, A. Klein-Hoffmann, O. Timpe, S. B. Abd Hamid and R. Schlögl:* Hierarchisch strukturierter Kohlenstoff: Immobilisierung von Kohlenstoffnanofasern auf der Oberfläche und im Innern modifizierter Aktivkohle. In: *Angewandte Chemie* **117**, 34, 5624-5628 (2005).

*Su, D. S., N. I. Maksimova, J. J. Delgado, N. Keller, G. Mestl, M. J. Ledoux and R. Schlögl:* Nanocarbons in Selective Oxidative Dehydrogenation Reaction. In: *Catalysis Today* **102-103**, 110-114 (2005).

*Su, D. S., Z. Zhu, X. Liu, G. Weinberg, N. Wang and R. Schlögl:* Assembly of carbon tube-in-tube nanostructures. In: *ELECTRONIC PROPERTIES OF NOVEL NANOSTRUCTURES*. (Eds.) Kuzmany, Hans; Roth, Siegmund; Mehring, Michael; Fink, Jörg. AIP Conference Proceedings **786**. Springer, Secaucus, NJ (2005) 296-300.

*Sun, J., H. Zhang, D. Ma, Y. Chen, X. Bao, A. Klein-Hoffmann, N. Pfänder and D. S. Su:* Alkanes-assisted low temperature formation of highly ordered SBA-15 with large cylindrical mesopores. In: *Chemical Communications* **42**, 5343-5345 (2005).

*Suprun, W. Y., D. P. Sabde, B. Kubias, H.-K. Schädlich and H. Papp:* Transient isotopic studies on 1-butene oxidation over a VO<sup>x</sup>-TiO<sub>2</sub> catalyst in presence of water vapour. In: *Applied Catalysis A: General* **289**, 1, 66-73 (2005).

*Szizybalski, A.:* Zirconium dioxide supported Copper Catalysts for the Methanol Steam Reforming. Doktorarbeit, Technische Universität Berlin, Berlin (2005).

*Szizybalski, A., F. Girgsdies, A. Rabis, Y. Wang, M. Niederberger and T. Ressler:* In situ investigations of structure-activity relationships of a Cu/ZrO<sub>2</sub> catalyst for the steam reforming of methanol. In: *Journal of Catalysis* **233**, 2, 297-307 (2005).

*Teschner, D., A. Knop-Gericke, E. Vass, S. Zafeiratos, A. N. Pestryakov, E. Kleimenov, M. Hävecker, H. Bluhm and R. Schlögl:* Selective gas-phase hydrogenation of C-5 hydrocarbons using Palladium and Nickel based catalysts. In: BESSY Annual Report 2004. (Eds.) Kai Godehusen. Berliner Elektronenspeicherring-Gesellschaft für Synchrotronstrahlung m.b.H. (BESSY), Berlin (2005) 273-275.

*Teschner, D., A. Pestryakov, E. Kleimenov, M. Hävecker, H. Bluhm, H. Sauer, A. Knop-Gericke and R. Schlögl:* High-pressure X-ray photoelectron spectroscopy of palladium model hydrogenation catalysts. Part 1: Effect of gas ambient and temperature. In: Journal of Catalysis **230**, 1, 186-194 (2005).

*Teschner, D., A. Pestryakov, E. Kleimenov, M. Hävecker, H. Bluhm, H. Sauer, A. Knop-Gericke and R. Schlögl:* High-pressure X-ray photoelectron spectroscopy of palladium model hydrogenation catalysts. Part 2: Hydrogenation of trans-2-pentene on palladium. In: Journal of Catalysis **230**, 1, 195-203 (2005).

*Teschner, D., U. Wild, R. Schlögl and Z. Paál:* Surface State and Composition of a Disperse Pd Catalyst after Its Exposure to Ethylene. In: Journal of Physical Chemistry B **109**, 43, 20516-20521 (2005).

*Tham, A. T., C. Rödel, M. Lerch, D. Wang, D. S. Su, A. Klein-Hoffmann and R. Schlögl:* A TEM study on ZrO<sub>2</sub>-rich phases in the quasibinary system ZrO<sub>2</sub>-Zr<sub>3</sub>N<sub>4</sub>: Comparison between fast and slowly cooled samples. In: Crystal Research and Technology **40**, 3, 193-198 (2005).

*Veisz, B., L. Tóth, D. Teschner, Z. Paál, N. Györffy, U. Wild and R. Schlögl:* Palladium-platinum powder catalysts manufactured by colloid synthesis I. Preparation and characterization. In: Journal of Molecular Catalysis A **238**, 1-2, 56-62 (2005).

*Willinger, M.-G.:* Electronic Structure of Vanadium Phosphorus Oxides. Doktorarbeit, Technische Universität Berlin, Berlin, Germany (2005).

*Willinger, M.-G., D. S. Su and R. Schlögl:* Electronic structure of  $\beta$ -VOPO<sub>4</sub>. In: Physical Review B **71**, 15, 155118-1-155118-8 (2005).

*Würz, R., M. Rusu, T. Schedel-Niedrig, M. C. Lux-Steiner, H. Bluhm, M. Hävecker, E. Kleimenov, A. Knop-Gericke and R. Schlögl:* In situ X-ray photoelectron spectroscopy study of the oxidation of CuGaSe<sub>2</sub>. In: Surface Science **580**, 1-3, 80-94 (2005).

*Xia, W., D.S. Su, A. Birkner, L. Ruppel, Y. Wang, C. Wöll, J. Qian, C. Liang, G. Marginean, W. Brandl and M. Muhler: Chemical Vapor Deposition and Synthesis on Carbon Nanofibers: Sintering of Ferrocene-Derived Supported Iron Nanoparticles and the Catalytic Growth of Secondary Carbon Nanofibers. In: Chemical Materials 17, 5737-5742 (2005).*

*Xia, W., D. S. Su, R. Schlögl, A. Birkner and M. Muhler: Conical carbon filaments with axial cylindrical channels and open tips. In: Advanced Materials 17, 13, 1677-1679 (2005).*

*Zeitler, E.: Closed Form Integral. In: The Mathematica Journal 9, 4, (2005).*

*Zhu, Z. P., D. S. Su, G. Weinberg, R. E. Jentoft and R. Schlögl: Wet chemical assembly of carbon tube-in-tube nanostructures. In: Small 1, 1, 107-110 (2005).*
